3 Bedroom, 3.00 Bathroom, 4,300 sqft

Single Family on 2.09 Acres

Revelstoke, Revelstoke, British Columbia

A property of true distinction, this custom-built 4,300 sq. ft. timber frame estate rests on 2.09 acres at the base of Revelstoke Mountain Resort and the Revelstoke Cabot Golf Course. A rare example of Swiss hand-detailed carpentry, the residence showcases age-old post-and-beam construction executed with uncompromising precision—an architectural achievement seldom available in Western Canada. Every element of this home reflects mastery in design and engineering, from staggered 2x12 construction and triple-glazed tilt-and-turn imported windows and doors, to the advanced geothermal heating system, Belgium Stuv wood stove, 400-amp electrical service, and robust ICF foundation. These uncompromising details combine to deliver enduring strength, efficiency, and refinement. Inside, the primary suite offers a luxurious five-piece ensuite, walk-in dressing room, and a private bonus hideaway—perfect as an exclusive storage retreat or imaginative play space. A secondary main-floor suite provides elevated privacy for visiting guests. The grand entertaining spaces are defined by an oversized chef’s kitchen and dining area, flowing into a striking great room with floor-to-ceiling windows that capture unobstructed alpine views. Custom railings, expansive decks, and rich natural finishes frame the home’s dramatic silhouette against the mountains. A residence of this caliber—melding Swiss-crafted artistry with modern luxury—is exceedingly rare. Private
