4 Bedroom, 6.00 Bathroom, 4,040 sqft

Single Family on 0.17 Acres

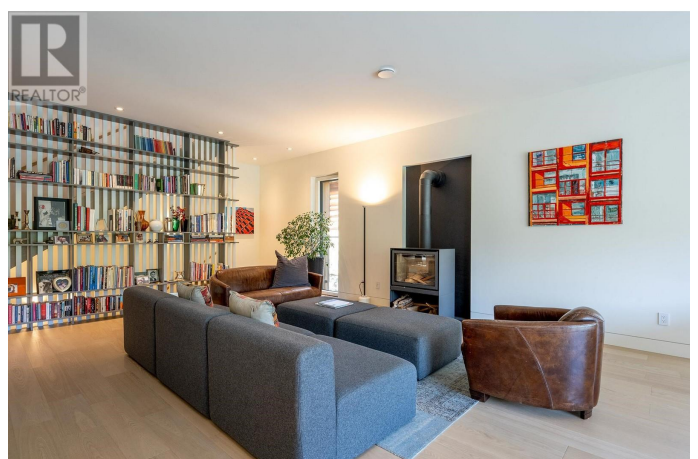

N/A, Whistler, British Columbia

6187 Eagle Drive is a fantastic DÃ¼rfeld Constructors masterpiece that is located in the ever so popular Whistler Cay Heights neighbourhood. This building was constructed using a wood paneling system by BC Passive House in Pemberton, making it climate-resistant, healthy, and energy-efficient. The installed HVAC system regulates indoor temperature by ensuring proper ventilation: it draws in fresh outdoor air, filters it, and distributes it throughout the space while simultaneously exhausting stale air. The house has a very light environmental footprint and uses significantly less energy for heating and cooling, thanks in part to nearly invisible solar panels on the roof. The energy is electric throughout this distinctive 4,040 sq/ft mountain residence while offering such a wonderful sense of calm. Whistler Cay Heights is walking distance to the Arnold Palmer designed Whistler Golf Club, convenient Valley Trail system and of course Whistler Village where the shopping, dining & recreation options are abundant.
