This custom: Insulated Concrete Form Home. is thoughtfully designed with incredible energy efficiency: the radiant in-floor heat system that also heats the two water tanks (70 gallons) via a natural gas boiler, keeps utility costs low year-round. The upper level features 1,657 sq ft of living space with two separate suites—each with its own kitchen and full bath. The main kitchen is a standout with a large wood-top island, soft-close cabinetry, and plenty of storage. The spacious bathroom includes a deep soaker tub and tucked-away laundry. The separate studio/suite space—ideal for hobbies, guests, or home-based work. Downstairs, you'll find a generous 40x28 double garage & workshop. Multiple hydrants throughout the property make it easy to care for animals or gardens. (id:6289)
