These three quarters of land are perfectly situated just 1.5 miles South of Endeavour SK. The very fertile soil will grow a variety of cash crops that will add to your farms bottom line as you look to expand your operation or increase investment income through growing rental rates and land appreciation. The Endeavour area of the province is also renowned for its incredible big game and bird populations making this land even more desirable to call your own. According to the owner, NW 28-36-05 W2 has a high probability of significant gravel deposits due to the proximity to numerous functioning gravel pits and the topography and composition of the land, however no testing has been done to date to determine the size of the potential deposits.
